Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, 21-25, drawn to a method of communication of data wherein retransmission of a segment received in error is requested only when the segment received in error is not correctable, classified in class 370, subclass 342.
 - II. Claims 13-20, drawn to communication of data wherein a forward error correction coded rate is based on a channel condition, classified in class 714, subclass 752.
2. The inventions are distinct, each from the other because of the following reasons:

The invention in group one is drawn to a method of communication of data including receiving a forward error correction coded block, a forward error correction code rate, and a symbol modulation rate wherein retransmission of a segment received in error is requested only when the segment received in error is not correctable. The invention in group 2 is drawn to communication of data wherein a forward error correction coded rate is based on a channel condition. The inventions have separate utility and require separate searches.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erika A. Gary whose telephone number is 571-272-7841. The examiner can normally be reached on Monday-Thursday.
